

## X3 Spider

One of our most capable and rugged Crawlers

The X3 Spider is a 4th generation remote scanner capable of ultrasonic corrosion inspection for tanks, pipes, and vessels.

The X3 is a highly maneuverable system capable of traversing difficult obstructions made possible by its high suspension compliance.

The unit is completely sealed from the environment and has a hard coat anodized exterior to reduce environmental wear on the system. The scanner utilizes motors with the highest power density available to provide a high-performing crawler.

Single and dual-element transducers are available with the system to adjust for variable conditions. Each scanner is manufactured in-house and rigorously tested, so you can trust that the scanner you receive is of the highest quality.

### System Features:

- *New, simplified 4-conductor cable*
- *On-board motor control*
- *Closed-loop control: holds position with joystick in center position*
- *Proprietary magnetic encoder*
- *Proprietary constant force probe*
- *Compatible with ScanTech mini controller interface or standard X-Controller, providing joystick control and encoder output*
- *Powered by AC/DC power supply or battery*
- *Still the most rugged crawler on the market!*

### X3 Specifications:

<b>Height</b>	5 in (127 mm)
<b>Length</b>	11 in (279 mm)
<b>Width</b>	16.25 in (413 mm)
<b>Weight</b>	19lbs. (8.7 kg)
<b>Wheel Base</b>	4.7 in (127 mm)
<b>Magnetic Pull Force</b>	60lbs/a wheel 240 lbs. total
<b>Speed under cable load</b>	11 in/sec
<b>Tractive Pull</b>	109 lbs. (484 N)

## System Information

### Full system contents:

- 1- Mini Controller/ 1/5th the size and 1/20th the weight of the X Controller
- 1- X3 Main Cable
- 1- X3 Joystick
- 1- X3 Joystick Cable

### Optional items:

- UT instrument**
- BPS/** Battery Power for Mini Controller
- WS3/** Battery Powered Water System
